

Mariana Ordoñez Alarcón

Ecommerce Graphic Designer — Shopify, Amazon A+ and campaign creative

Bogotá, Colombia · Remote, US hours (UTC-5) · Spanish (native), English (full professional)

marianaordonez04@gmail.com · [add phone number] · mordonez.com · linkedin.com/in/mariana-ordonez-alarcon-ux-designer

SUMMARY

Ecommerce graphic designer with 8 years producing the creative that sells: Shopify storefronts, Amazon A+ content and product detail page (PDP) imagery, email and paid social campaign assets for DTC brands and retail marketplaces. Currently designing the digital shelf for Ferrero USA brands across Amazon, Walmart and Instacart. Reusable template systems and an AI assisted production workflow keep output high and on spec, while brand rules, visual craft and final QA stay with me. Fully remote with US teams since 2018.

CORE SKILLS

Marketplace and digital shelf: Amazon A+ Content and Premium A+, listing and hero images, infographics, image carousels, Amazon Brand Stores, variant and bundle selectors, Walmart and Instacart specs, Salsify syndication.

Shopify and conversion: Shopify storefront and theme design, product detail pages, collections, landing pages, checkout flow, conversion rate optimization (CRO), A/B test variants, average order value (AOV).

Campaign and brand creative: paid social and Meta ad creative, Klaviyo email and lifecycle templates, seasonal campaigns, brand and visual identity, social content systems, product photography and retouching, packaging.

Product and systems: Figma design systems and components, wireframing, prototyping, usability testing, developer handoff.

Tools: Figma, Shopify, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Adobe InDesign, Canva, Salsify, Klaviyo, Procreate, HTML, CSS, React basics, generative AI tools (Claude Code, ChatGPT, Gemini, Adobe Firefly).

EXPERIENCE

Digital Shelf Designer

eStoreLabs (client: Ferrero USA) · Remote, US hours · Sep 2024 - Present

- Design and ship Amazon A+ content, listing and hero images, image carousels and brand store pages for Ferrero USA brands including Kinder, Nutella, Ferrero Rocher, Tic Tac and Butterfinger, across Amazon, Walmart and Instacart.
- Build A+ and enhanced content as a reusable module system, so every brand ships a complete, on brand listing at marketplace speed.
- Translate strict global brand guidelines into platform native, spec compliant layouts, applying visual hierarchy and conversion principles to high traffic product pages.
- Deliver seasonal and cross brand campaign creative (Easter, Halloween, World Cup) across the portfolio, on weekly deadlines.
- Shaped the UX of the team's internal AI copilot that scores marketplace imagery against best practice and prioritises fixes before publication.

Ecommerce and Campaign Designer

Planet of the Vapes · Freelance, Remote · Jul 2023 - Present

- Design Shopify product and landing pages, promotional campaigns and email and SMS assets for a large DTC catalogue, built to convert and quick to ship across frequent launches.
- Improve on site navigation, product discovery and the path from product page to checkout.
- Work from reusable Shopify sections and a modular design system, and run an AI assisted production workflow that raises output across store, email and social while keeping one visual system.

UX/UI Product Designer

trades.org · Remote · Jul 2022 - Dec 2023

- Owned end to end UX and UI across multiple web products: research, wireframing, prototyping and usability testing to reduce friction in complex journeys.
- Built a scalable design system (components, variants, documentation) plus custom CMS and ATS workflows.

Founder and Designer, DTC ecommerce store

MoaPrints · Self-employed, Remote · Jun 2020 - Dec 2023

- Founded and ran a direct to consumer store selling original illustration work for three and a half years: designed the full product range and brand system, and ran the storefront end to end (product pages, photography, listings, pricing, merchandising, fulfilment).

Ecommerce Designer, Shopify and CRO

Casabianca Cycling Apparel · Remote · Sep 2018 - Jun 2022

- Designed and continuously optimised the Shopify store for four years: product pages, collections, campaign landing pages and the brand system.
- Rebuilt product page hierarchy and the checkout experience to reduce friction, and extended the brand into social content, packaging and apparel product design on one visual system.
