

Mariana Ordoñez Alarcón

Agentic Product & AI UX Designer — Ecommerce, Shopify and AI-native workflows

Bogotá, Colombia · Remote, US hours (UTC-5) · Spanish (native), English (full professional)

marianaordonez04@gmail.com · mordonez.com · linkedin.com/in/marianaordonezalarcon

SUMMARY

Product designer with 8 years designing conversion-focused ecommerce experiences, now working AI-native. Currently designing the digital shelf for Ferrero USA brands across Amazon, Walmart and Instacart, and running my own Shopify store, which I designed and coded with Claude Code from design to production. AI speeds up the work; brand rules, craft and final QA stay with me. Fully remote with US teams since 2018.

CORE SKILLS

AI UX and agentic workflows: AI copilot UX, conversational UX, agentic prototyping and development with Claude Code, AI-assisted production workflows, research synthesis.

Marketplace and digital shelf: Amazon A+ Content and Premium A+, listing and hero images, infographics, image carousels, Amazon Brand Stores, variant and bundle selectors, Walmart and Instacart specs, Salsify syndication.

Shopify and conversion: Shopify storefront and theme design and development (Liquid, HTML, CSS, JavaScript), product detail pages, collections, landing pages, checkout flow, conversion rate optimization (CRO), A/B test variants, average order value (AOV).

Campaign and brand creative: paid social and Meta ad creative, Klaviyo email and lifecycle templates, seasonal campaigns, brand and visual identity, product photography and retouching, packaging.

Product and systems: Figma design systems and components, wireframing, prototyping, usability testing, developer handoff.

Tools: Figma, Shopify, Claude Code, ChatGPT, Gemini, Adobe Firefly, Adobe Photoshop, Illustrator, After Effects and InDesign, Canva, Salsify, Klaviyo, Procreate, HTML, CSS, React basics.

EXPERIENCE

Founder, Designer and Developer — Mariana Ordoñez Art (tienda.mordonez.com) · Self-employed, Remote · Jun 2026 - Present

- Designed, coded and run a DTC Shopify store for original watercolors, limited editions, cards, digital downloads and commissions, on a custom theme (Liquid, HTML, CSS, JavaScript) built with an AI-assisted development workflow.
- Applied CRO practices: free-shipping threshold, early-access newsletter capture, pricing anchors and SEO-optimized product titles; handle merchandising, photography, copy, fulfillment and customer service.

Digital Shelf Designer — eStoreLabs (client: Ferrero USA) · Remote, US hours · Sep 2024 - Present

- Design and ship Amazon A+ content, listing and hero images, image carousels and brand store pages for Ferrero USA brands including Kinder, Nutella, Ferrero Rocher, Tic Tac and Butterfinger, across Amazon, Walmart and Instacart.
- Build A+ and enhanced content as a reusable module system, translating strict global brand guidelines into platform-native, spec-compliant layouts for high-traffic product pages.
- Deliver seasonal and cross-brand campaign creative (Easter, Halloween, World Cup) across the portfolio, on weekly deadlines.
- Shaped the UX of the team's internal AI copilot that scores marketplace imagery and prioritizes fixes before publication.

Ecommerce and Campaign Designer — Planet of the Vapes · Freelance, Remote · Jul 2023 - Present

- Design Shopify product and landing pages, promotional campaigns and email and SMS assets for a large DTC catalogue, built to convert and quick to ship across frequent launches.
- Improve navigation, product discovery and the path to checkout; run an AI-assisted production workflow on reusable Shopify sections that raises output while keeping one visual system.

UX/UI Product Designer — trades.org · Remote · Jul 2022 - Dec 2023

- Owned end-to-end UX and UI across multiple web products: research, prototyping and usability testing to simplify complex journeys.
- Built a scalable design system (components, variants, documentation) plus custom CMS and ATS workflows.

Founder and Designer, DTC ecommerce store — MoaPrints · Self-employed, Remote · Jun 2020 - Dec 2023

- Founded and ran a direct-to-consumer store selling original illustration work for three and a half years: designed the full product range and brand system, and ran the storefront end to end (product pages, photography, listings, pricing, merchandising, fulfillment).

Ecommerce Designer, Shopify and CRO — Casabianca Cycling Apparel · Remote · Sep 2018 - Jun 2022

- Designed and continuously optimized the Shopify store for four years (product pages, collections, landing pages, brand system); rebuilt product page hierarchy and checkout to reduce friction, and extended the brand into social, packaging and apparel.
